

For Release to the General Public as of November 28th, 2002 A.D.

Merry Christmas America!

I would like to begin by thanking Art Bell for his inspiration to develop, create and inspire in all of us the mysteries of the universe that are out there. If it was not for him, this machine would never have been created.

I give heartfelt thanks to Dr. Steven Greer for his continuing, although difficult, task of breaking up and bringing to light the "hidden sector" of technology that is not being fully utilized to the public arena.

A few things before you read this information:

1: I backed this information up to a secret website about 4 years ago and never distributed this information to anyone. A few weeks later, I could not log into my website and found that my password had been changed. - I have been a webmaster since the web began - close to 7 years now - I have built over 15 different websites (professional) websites and never have I ever had difficulty logging in or accessing any of them. It seems somebody out there has a very huge capability to search the entire web either webpages that are not made public, as well as webpages that are made public, and whoever they are, and I'm sure they're reading this found this information a little too hot to handle.

So that is why this website is being mirrored on as many free servers as possible, and I suggest you download it to your PC for future reference as who knows what may happen as I am now going public with this information. My name is withheld (for obvious reasons). Also this information is given to the free domain and reproduction is hereby granted. Please mirror this information on as many servers as you can. Hereby permission is granted to freely distribute this information with the restriction that you do not take credit for the machine, technology or research described herein. Reference can be made to **Deepstar - California** for the author / inventor of this machine.

Here is the story (short version)

From 1993 to 1996 I was involved in research at a Government facility on developing a machine capable of materializing or manifesting objects ,

circumstances and accelerating thought forms.

Research took place using lottery numbers. Simply put, the machine (which I'll explain later) was activated to create the next days lottery numbers. The machine worked on frequency, so a frequency was put up for a number of hours or days, sometimes seconds and then the next day the lottery would be drawn and the numbers would appear.

Now don't get greedy here, the lottery number system was used because it is totally random and a great tester for tuning the machine and getting it to perform as engineered.

Over time the results were up to %99 in materializing the lottery numbers for the next day. Once that was achieved the machine was deemed operational and lottery number research materialization was abandoned. Words cannot explain the feeling when you materialize the numbers you set the frequency for. It is like turning on a light switch and bam! they appear out of thin air!

Now the fun part starts.

When you reach this level of technology you step into another world. A world where anything is possible. The machine was used for many things from diverting war, to creating a better world, to contacting beings from other planets to stop the aging process to instant healing and so on.

Well it was found that after using the machine for so many uses and things, and it sounds crazy, but it seems that we exist in our own reality, space time universe. So what this machine does is creates a rift in space/time to the universe that you want. This universe is based on the frequency that is activated / tuned. This then puts you in that universe. It is also permanent, and I mean very permanent. Once you set the frequency say for example to stop aging, you stop aging, although the effects are really weird for that.

In the end, you find that real power such as being president of the united states of America is not real power at all. Why is that real power when you can set up this machine to take you / create the situation / event you want at will? Real power is growing from within learning about who you really are. When you change who you are inside the whole world changes. It is really true.

I've nicknamed this machine "the ark of the covenant"

Noted side effects while being in the presence are:

- 1: Machine tends to "come alive" or begins to display a consciousness of it's own.
- 2: Amplification of thoughts, feelings and emotions while near or around the machine.

3: Computer operations are affected and you can have fun with this. Most noted computer malfunctions are programs that open/close on their own, and other odd things.

4: The room, when activated will achieve a warmer temperature.

5: Healing while near the machine.

The reason I am releasing this information is because:

1: Dr. Greer's effort to release these technologies to the public domain.

2: The need for such technology to better humanity (the intent of the machine)

3: A personal goal of mine

I know what the government and maybe you are thinking right now:
What about terrorists or "it" getting into the wrong hands?

1: The universe all around us is not what it appears. If a terrorist was to build this machine and exploit it, then this is what would happen: He/She would create a terrorist attack in his/her own reality and suffer the consequences. You and I would not be affected, however in another universe we would be affected. It gets quite complex, and I'll keep it simple.

I'm sure whoever hacked my online backup data knows this information completely. I'm also sure that real advanced physics researchers understand what I am talking about here as far as personal universes go.

Since I am no longer in government employ I use the machine myself mostly. I have used it to stop aging, create a booming business, attain chosen goals in life and soon will use it to leave for the stars. Either open a portal or go to another planet where they have achieved a higher level of understanding of living with others. Now that's gonna rock!

This website has many mirrors so that is why it is short and simple. I don't want "theM" screwing with this information again.

Here are the plans and information. If you build this machine properly and follow the instructions correctly, than you can be guaranteed of success.

Preparation:

Read up on Radionics. And build a simple radionic box. Once that is done, make additions by following the instructions I have listed in this document.

1: Get the rate for the frequency. If you want it to rain for example. By saying, "Tell me the cause for it not raining on Saturday"

Now once you have that rate, subtract it from 10.

The rate you subtract from 10 is the frequency you will use to activate the machine.

This works great for curing a cold or instant healing. It's amazing, it's like a miracle when it works.

Sounds crazy, like this machine, but it does work. And you need to follow each step along the way to get results. It takes about 2 hrs to prep and get the machine ready. But worth it if you want to change the universe you exist in.

Risk and patience are the keys to allow us to influence reality.

This machine will put you into an alternate version of reality. Using this machine will help you tap into the alternate realities all around us and by tapping into the right reality you can benefit.

Activate frequency up when moon is in Libra/Taurus once a month during any of the moons phases or periods (you can find this information in Lewellyn's Moon Sign Book). Choose Libra or Taurus by finding the best moon phase and day of week and aspect to give you the correct formula for the best period. Sometimes Taurus may be in moon for 3 days or vice versa with Libra.

Before you put up any broadcast remember over doing it will cause problems. Never broadcast more than 12 hrs at a time. The energy gets too intense and causes short circuit, burning of the materialization. The frequency can be activated for 4 hrs 5 days a week so the charge has time to build.

The 2 planets with the largest bodies closest to our earth affect reality the most. The first is Venus known as Libra/Taurus. The 2nd is the Sun known as Leo. The 3rd and 4th periods of the Moon acts as a lens, this is when the moon is moving away from the sun. This helps focus planetary energies to bring about the most influence.

NEVER broadcast more than 2 times during the Moons 4 phases upon the same target. Patience is vital for the charge to build up and for the planets to realign. During this time the "static" charge needs time to build up and this charge is extremely important for success upon the next broadcast. Without a proper charge the next broadcast fails. Leaving a gap of 2 weeks between broadcasts is recommended. Further research should accelerate this charge process.

A lot of energy is created when this device is activated so try not to cuss or set this up while you are in a bad mood, because this device will amplify whatever feelings you are having at the time, so this must be done while you are in a positive manner. After you have set it up and are about 6ft away the amplification effects are not as strong.

The box must be aligned on the North South axis, so all pyramids are square with the box. All pyramids on the box are placed on the North South axis. Be sure the box has been cleansed by placing a copper pyramid on the plate and another on the pad for 48 to 72 hours before the broadcast. This rids the box of any previous residue left over from the previous broadcast. Previous residue can influence and have an effect on the next broadcast that is carried out. Energies from this broadcast can affect the witness from the previous broadcast if the box is not cleansed properly. Try not to look at the witness in the first 15 minutes of broadcasting especially while the light is on the witness or pyramid, it can have a dizzying, smoke, mist life effect on your consciousness. Also use caution when handling super charged crystals, they give off very high energies.

The very first hour when these planetary signs emerge are the best time followed by the last 4 hours when the planet is in the new moon are when the energies are at their strongest. Pick out the best aspect during these times and put up frequency at the very start of that favorable aspect to pull the most power.

Remember energies are at their strongest just before a full moon/new moon and just after, this rule also applies to planets just before they enter the moon and just after usually in a 4 hour window + or -- 4 hrs. During the New Moon when the Sun and Moon are closest to each other the first hour of this aspect is very powerful.

The Best houses are Libra, Taurus, followed by Leo. Put the frequency up in the first hour of the sign. Leave a window to wait for the best aspect to enter during the 1st choice moons 3rd

phase 2nd choice moons 4th Phase.

The window should be anywhere from 12:30 a.m at night to one hour before sunrise in the morning. The preferred time is between 3:00 am and 5:30am but there is a larger window provided if needed.

Simply put, the best time to activate the machine is below:

Put the frequency up following these "windows" on a 1st choice Monday, 2nd choice Tuesday. 1st choice Moon in Libra. 2nd choice Moon in Taurus, 3rd Choice moon in Leo, 4th choice Moon in Aries or Moon in any Barren sign.

Moons phase to be 3rd or New if possible except for Libra & Taurus it does not matter what phase for these planets. Between the hours of 2:00am Monday morning and sunrise these aspects are the best times to put up frequency.

It is of utmost importance that you DO NOT TOUCH the witness plate after broadcast. Try it and you'll see what I mean. This plate can only be used once per broadcast. It must be disposed of carefully. The copper/tin witness plate becomes contaminated with frequency energy during and after each broadcast and is HAZARDOUS to handle. A fresh new plate must be used for each new broadcast. To give lightning results also REWIRE the box and potometers (or dials) before each broadcast. The copper wire gets contaminated during and after each broadcast also. THIS CANNOT BE STRESSED ENOUGH.

Best Sextile windows:

From 1st choice to last: Moon sextile or Trine Pluto. 2nd Choice: Any planet in any aspect of Saturn. Next: Moon Sextile Venus, Moon sextile Mercury. Or Mercury Sextile Venus, Moon Conjunction Uranus. For maximum charge activate frequency during the first hour of these aspects.

Choices are the 2nd option to create a successful formula if one period does not coincide with another than choices are given to provide the next best alternative, although they are not as powerful.

So in conclusion use the correct planet houses followed by the best aspect while the moon is in the 3rd phase, on a Monday morning. Frequency is activated during the first hour of these aspects. Use the timer to activate the frequency during the first hour of the aspects. If no good aspects are available than activate the frequency for one hour before sunrise one hour before noon and one hour before sunset and one hour before midnight, let the current run through the box for one hour during these periods.

As with electricity, to much applied current can cause the materialization to lose power. It is better to have less current rather than to much, to much applied current can cause short circuiting of the materialization.

What you get you will pay for. If you want your stocks to rise, which I've done before, by all means help yourself. But you will only learn that money is just paper and real life is not about money or cash or material pleasures. Try it for yourself and you'll see what I mean.

During the months of June/July is when the creation energies are at their strongest. (crop circles manifest also during this phase). This was a breakthrough in the research it was found that the "windows" created by this machine are at their peak during this time of the year) This is because during this period the Summer Solstice begins the new year. Any broadcasts during this period are especially more powerful then other times of the year.

The Sea of Energy that is all around you and the Radionics Box Will affect your body when you activate the Frequency. You may go through a phase of "lack of oxygen" and temporary Nausea at first. Shortness of breath is not uncommon. This is good because it means the frequency is activating properly. This is because the Broadcast requires certain energy to "open the portal".

Instructions are below:

1: Re-wire the Potometers (or dials) with FRESH new wire. Have a FRESH new copper plate or tin plate from a coffee can for the witness. Turn computer monitor on and type wording that resembles witness on plate using bold characters with the sentence ending with now. Use copy feature and repeat this 40 times remembering not to let the characters scroll off the screen. Remember to sticky tape the copper plate to the computer screen and attach one wire to the Copper Amp Bowl which will be placed on pad. The timer controls the Orgone Blaster, Spinning crystal, Light inside crystal, Green Led, Strobe light, and box current. When dissolving Regional; International Conflicts, place VALERIAN or Research the appropriate Herb to Dissolve Tensions. Use correct Herbs for Rate.

2: Insert 2 new copper rods onto the side of the main GOLD pyramid and clip into place. Place one on the east slope of the pyramid and the other on the south slope. Fresh untreated wire gives lighting results. These rods are always disposed of after the broadcast has been completed.

3: Place a super charged Orgone sheet in box that has been charging for one month. Place a small cup of salt water on this charge sheet inside box. Place small pyramids on this charge sheet surrounding water.

4: Place the copper ring of marble spheres on charge sheet in box so the marbles surround the saltwater.

5: Program the timer to activate during the first hour of favorable aspects. Let the current run for one hour only, any more and you'll overcharge freq. If no favorable aspects exist than activate during the set times. 1hr before sunrise, 1hr before noon, 1hr before sunset, 1 hr before midnight.

6: When you put the witness under the pyramid be sure you put a laminated card with the thoughtform or intended goal written on it. This must be in writing and is placed next to the witness under the pyramid, witness and pyramid and thoughtform all face north.

7: Put a container of salt water under the Main Gold pyramid. Place pyramids over the potometers or volume control knobs.

8: Attach grounding wire clip and attach Caduceus coil antenna clip to main pyramid south wire.

9: Connect the copper amp bowl wire near pad. Attach the caedus coiled antenna to south main pyramid wire.

10: Attach Plate #2, which is an aluminum plate with a copper coil on it. Clip this coil wire to the south side of the pyramid wire. Put a pyramid charged crystal facing north on this plate coil & place a pyramid over this plate.

11: Place a large Amplifying pattern with circles made from copper, or use a pattern from King Solomans patterns, or the bubble pyramid pattern, and place this design on the pad.

12: Play a recording of the goal or chanting music and place the headphone speakers face down on the pad.

13: Place a strobe light on pad and connect it to the timer. Put the strobe pulse on slow blinking.

14: Put the direct opposite of your goal in writing around the outside of the pad or around the outside of the pad. The opposites must surround the outside of the pad and be exactly the opposite of the goal. Use more than one sentence that says different things for an opposite.

15: Check to make sure all electrical connections are neat and safe.

16: Place a picture of the sun under the amplified pyramid on pad.

17: Next place 1 30 day charged crystal beside the copper bowl on the pad. And place the next crystal with the tip pointed north on pad on the south side of pad.

18: Press play of the chanting on the cassette player, computer.

19: Place the Orgone blaster above the pyramid that is on the pad, and pulse it on a high blinking rate. Activate it at the same time the timer is activated.

20: Place a soldering iron over the pad (not touching) just barely enough to give the pad some heat. Put the soldering iron at an off/on rate at hourly intervals with the same on/off times as the timer. Use caution and be sure it is safely set up, use the best procedures to insure maximum safety so no injuries result from the soldering iron.

21: Shine a 400,000 candlelight light with a red lens on Main Gold pyramid (aka plate).

22: Activate Wand and Bless Frequency Materialization to Manifest.

23: Put a crystal headband on your head and attach the wire to the gold pyramid. Chant and visualize the intended goal like it has already manifested. Do this for 10 minutes. (This part is optional but can help in the intended results.)

24: After chanting place a flashlight shining over the MAIN pyramid. This light must be a 2AA flashlight. This light must only run for the life of the batteries which is about 10 to 20 minutes and no longer. When the light goes out on the flashlight, DO NOT shine any more light on the pyramid. The darkness aids in creation of the materialization. Excessive light on the pyramid leads to short circuiting of the materialization.

25: After frequency is up for 6 - 48 hours remove everything. Retrograde:

Shine the red light on plate.

Activate Frequency.

Set all Potometers to "0".

Activate Wand on Frequency.

Wait 4 minutes.

Remove frequency set-up completely.

Dispose of the copper rods and turn off everything. It is advisable to only keep the frequency activated for a maximum of 12 hours or less. Overdoing it can cause short-circuiting of the Materialization. For optional broadcasting out in the middle of nowhere see end of Glossary.

26: This formula is intended for use with the Main Gold pyramid. Although using a copper plate to treat or create reagents can be used in place of the Main Gold pyramid. The Main Gold pyramid is just more powerful. The treated cup of water from the pyramid, or copper plate contains the frequencies energy and is very potent. It can be poured into a glass jar and used for a variety of purposes. This is the water from the pyramid only, not the water from the charge sheet inside the box. For example, you can put the glass jar of water in an Orgone pipe and let it re-broadcast this energy over a wide area. Or you can bury it 3 inches in the ground on the east side of a trees trunk to let the energy get rebroadcast over a wide area. If the rate is for machinery place the glass jar next to that piece of machinery or near the engine of your car. Or for reduction of age and increased health sleep with the glass jar in your bed, or dilute with water and rub on face or areas of your body to aid in health. Or you can put the water in a cars radiator if you broadcast on the car. The more diluted the treated water is the more potent it is.

One 25 gram treated water will last over a year if used properly.

Please bear with me. This is a very advanced science, not disclosed to the public. The U.S. Government is years ahead in research projects involving all kinds of consciousness and related technologies, some will never be released. This information here you are very lucky to find, so please respect it and don't knock it until you have built one, followed the instructions precisely and tried it for yourself.

Glossary

Witness: A photograph or intent of goal written on paper.

Orgone Blaster/Generator: A special machine that generates life force energy or chi. Available from HSCTI.

Rate: Place a photograph of the person, place or event you wish to happen. Now get the "rate" by rubbing fingers or thumb on the rubber stick pad, turning the dial with the other hand and asking a question like, "tell me the rate for the *cause* of it not raining," when your finger sticks to the pad or you hear a "pop" stop rubbing and stop turning the dial. This is now the "rate". Now subtract the numbers from the dial or "rate" from 10 and you now have a rate to make it rain. This particular machine has 9 dials or potometers. A book or reseach on the web about radionics gives more info.

Timer: A digital timer set to activate the frequency on/off during the phase of its broadcast.

Orgone Sheet: 15 to 20 thin sheets of layed foil with a non conductive sheet, like wax paper between each foil sheet, at the very last sheet is a a copper wire which connects to box. The Orgone sheet is charged for 4 days by placing it on top of layer of smaller pyramids.

Salt Water: A small plastic or glass bowl of salt water from normal salt.

Copper ring of marble spheres: A ring of copper with small spheres of crystal glued to it.

Laminated Card: This is the goal or frequency you wish to occur written on paper than laminated with adhesive clear tape or plastic coated.

Grounding Wire Clip: This wire leads to the ground of your house or outside to a rod embedded into the soil.

Caduceus Coil: See web for how to construct one. Creates Zero Point Energy quite well when life / force pyramid energies are fed into it.

Plate #2: This is a normal tin plate with a copper coil in the center which clips to the main plate. This plate is attached to the side of the box about 1' from main plate.

Caduceus Coil Antenna: A normal telescopic antenna that has 2 DNA strand style windings opposite each other that start at the base of the antenna and finish at the top. At the very top of the antenna rests a marble sphere.

Copper ring of spheres: Two copper rings of 2 slightly sizes to form 2 rings. Marble spheres are glued to the 2 rings to form a complete circle.

30 day charged crystals: These are two crystals that have been put inside a pyramid and left there for 30 days to obtain a maximum charge. This can be on an Orgone sheet with a pyramid on top or just under a plain pyramid.

1 month sheet, super charged sheet: This is a 8 layered sheet consisting of 8 layers of aluminum and 8 layers of plastic one on top of the other to form a type of sandwich called an Orgone sheet. There is wire running in a wave like pattern on one side of the sheet and a wire comes out at one end for a connection to the box inside. This sheet is placed on the top of a number of small pyramids that cover the area of the sheet. This sheet sits on these pyramids for 30 days gathering enough charge to be released during a broadcast when it is connected to the box.

Opposites: This is small pieces of paper with the exact opposite of what you want to occur written on it. These are placed around the outside of the coil on the pad.

Card: This is a laminated piece of paper, that has your thoughtform or what you want to occur written down on it. This piece of paper is placed next to the witness on the plate during any broadcast and is used when obtaining a rate. This piece of paper is vital to any broadcast.

Plate: Where the witness and paper is placed during a broadcast.

Pad: Where the coil is located on the box, it is also used to obtain a "stick" when taking a rate. This is covered in rubber and is where the strobe light and soldering iron are placed.

Copper Cap: A copper cap or small bowl that has been placed inside a pyramid for 30 days. The bowl contains a small crystal pointing upwards. This radiates an energy field that extends for several feet.

Amplifying Pattern: A large circle surrounded by a smaller number of circles. Usually made of copper circles on cardboard or thick paper. Used to charge geometric patterns and as an amplifier.

Soldering Iron: Standard soldering iron.

Wand: Copper pipe with 2 crystals at each end. Used to help the energies flow when frequency is activated.

Crystal Headband: A band made of copper which fits on the head. Attached to the copper band is a wire which feeds into the circuit of the box.

See this vacuum cleaner and it's energies dissipate on a gray smoke.
22. Starting in the center of the box, see burning charcoal with sage upon it. See the burning sage grow more and more intense and fill every nook and crevice inside the box, side to side, spanning space and time and interdimensionally. See it ridding the box of negative energies and cleansing it. Now see the sage burn out and the charcoal disappear.

23. Now see Divine Light and Guidance enter where the burning sage once was. See this light fill every part of the box, above, below, side to side, spanning space and time and interdimensionally. See it spreading out into all and every direction. Filling the entire radionics box.
24. Now Speak, " Inside and around this radionics box, above, below, side to side, spanning space and time and interdimensionally clear and seal portals above, below, side to side, where negative energies are affecting this radionics box. Clear and seal portals where negative energies are affecting people near this radionics box."
25. Now Speak, " Fill all voids & spaces created by this clearing with the clearest, highest, pure source of Light available."
26. Now Speak, "Leave only love energy, love thought forms, and love lines. Balance the ego and consciousness to accept these new changes, shield this work with the Holy Spirit, and Seal it with the Holy Spirit. Bless us in the Name Of God."
27. Now see the rate that will be activated next. See the energies being pure and with clear focused intent.
28. Now see the whole radionics box surrounded by a clear white light. See it forming a sphere around the box.
29. Now visualize a protective bubble surrounding this sphere of white light.
30. Now Speak, "I invoke a protective bubble, a shield around this sphere of white light around this box. This shield will only allow loving and positive influences to penetrate it. All negativity is repelled, and bounces back to its source TRANSFORMED INTO POSITIVE AND LOVING ENERGY."
31. Now Speak, "Set up a shield of protection - a mantle of Light around this box and its surrounding areas."
32. Now Speak, " Monitor & maintain this shield of protection from any additional influx of disharmonious energies coming in from outside the site of clearing. Stabilize the area after this clearing has been fully completed."
33. Now Speak, "Protect these codes from manipulation, contamination, degradation and de-evolution or any misuse or intentional harm. All use of these codes automatically imprints Light information."
34. Now Speak, "If it is for the good of all concerned, and in accordance with Holy Spirit may this cleansing materialize as instructed"
35. "I thank my spirit guide for assisting me here today."

Optional Auric Clensing:

- 1: See a set of imaginary hands starting at the top of the box and working its way downwards all throughout the box. This is as a swift chopping action.
 - 2: Now with the palms of these hands comb the box aura with the fingers starting at the top and working down.
 - 3: Now fluff the whole aura up and down as you would a pillow. Do this a couple of times.

Research notes:

Originals were lost. However here is a few of the ongoing notes I was pursuing:

I found that the cycles of the moon and the day of the most successful frequency activation was the same day I was born on. coincidence?

Use of a head band amplifies the energies and has quite an effect.

Parts must be thoroughly cleaned before use.

The machine has a habit of accumulating negative energies after a broadcast.
[Click here](#) and follow this procedure after a frequency has been activated or just set the machine out in the sun for a few hours to dispel the negative energies.

In the year 2005 I will disclose a method for levitating / moving extremely heavy objects. If mans insanity is at a level where he/she deserves this knowledge than I will release it.

It seems the Mayan race knew about the planets and their energies. These energies from this machine may explain their disapperance and how they were able to "portal" to another world or planet.

Optional continued broadcasting (not advised).

1: After this set-up has been on for 24 hours, between 5:30 and 6:00am the next day, place a new charge sheet inside box. Place a new light above the pyramid and keep the same water on charge sheet in box.

2: Place 2 new 30 day super charged crystals next to the copper cap on the pad. And do not touch any other part of the set up.

3: After another 24 hours have passed between 5:30 and 6:00 a.m. the next day. Remove the witness and the card from the pyramid and place them facing north inside a separate pyramid that is facing north. THIS PYRAMID WITH THE WITNESS MUST BE TO THE LEFT OR TO THE EAST SIDE OF THE BLACK BOX. Place beside box. Because the east side of the box is where the "vortex" energies are. This pyramid is an independent entity it has nothing to do with the box. Leave the Orgone blaster and soldering iron still pulsed at the correct intervals and keep everything on the box still the same.

4: After another 24 hours have passed between 5:30 and 6:00am the next day. Remove the witness with the card from the pyramid and put away. Remove and erase everything from the box.

Broadcast is finished.

Note: The east side of the box is where you apply the energies or "Life Force Power." The West side of the box is a "Null Zone." Because of this the combining forces of Nth Sth Est and West aid in materialization.
